RESTART

Key Points for Lacrosse

What will it look like:

Currently:

- **We can not advise how or when lacrosse will return.**
- **Sport is not anticipated to be the first area to return.**
- **England Lacrosse will provide clear guidance to all members at each stage of the return process.**
- **England Lacrosse support to follow the correct guidance will also be available.**
- **Government directives will determine England Lacrosse guidelines and these may well affect the rules of the game.**

We would like you to think about:

- **Social return allowing clubs to engage socially first and sporting return second.**
- **Flexibility of lacrosse offer: skills, small non contact groups etc.**
- **Adaptability of players, clubs and regions will be required.**
- **Local lacrosse may start before any travel is allowed.**
- **Clubs are encouraged to talk about and address barriers of return;**
    - **The new normal, fear of contact with other people.**
    - **Routines changed, loss of members.**
    - **Desire to give more to the local community and volunteer.**
